LAND AND AMPHIBIOUS ARMoured VEHICLES

Iveco Defence Vehicles looks back on a long tradition of excellence in developing wheeled armoured platforms that had its beginning in the 1930s, when the plant was founded.

Since then, the company has developed several 6x6 and 8x8 armoured vehicles for land and amphibious operations.

MULTIROLE VEHICLES

Characterized by exceptional mobility, both tactical and operational, and highly adaptable to meet the demands of any mission worldwide, Iveco Defence Vehicles' range of multirole vehicles is based on three platforms.

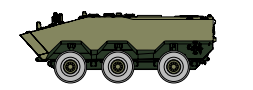

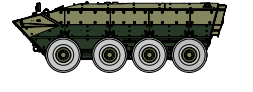

The extensive product offer, including protected and non-protected platforms, fulfil any operational requirement in the weight range from 3.5 to 12 tonnes with growth capability.

TACTICAL AND LOGISTIC VEHICLES

Iveco Defence Vehicles' portfolio of logistic and tactical trucks covers a wide range from van to heavy equipment transporters, capable of moving loads in excess of 75t.

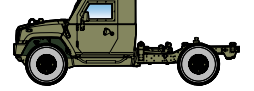

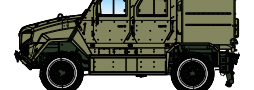

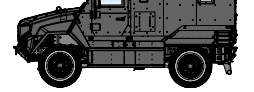

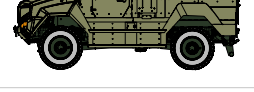

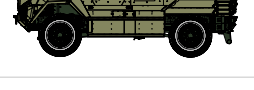

Available as 4x2, 4x4, 6x4, 6x6, 8x4, 8x8, 10x10, these vehicles fulfil logistic and tactical roles for a wide range of defence forces and are capable of operating in different scenarios in country and abroad.
